PROFESSIONAL SUMMARY

Software Engineer specialized in Full Stack development with 3+ years building scalable web applications. Expert in Angular and React ecosystems, with proven experience integrating .NET microservices and REST APIs. Passionate about creating intuitive user interfaces and reusable component architectures. Strong advocate for clean code, Agile methodologies, and continuous learning

WORK EXPERIENCE

Software Developer

Grupo TI | Jan 2025 - Present

- Developed 15+ reusable Angular components reducing development time by 30%
- Integrated 10+ .NET microservices consuming RESTful APIs with RxJS observables
- Improved application load time by 25% through lazy loading and code optimization
- Contributed to agile ceremonies (planning, reviews, retrospectives), ensuring delivery of features on schedule.

Junior Software Developer

Bentho Automation | Nov 2022 - Feb 2025

- Designed full-stack event management system serving 1000+ users
- Reduced API response times by 40% through optimized Angular HTTP interceptors
- Collaborated with backend team to ensure seamless integration of front-end logic with server-side processes

Hardware Lab Intern

Computer Engineering Laboratories, UASLP | Jan 2022 - Jan 2023

- Programmed Arudino devices using C++
- Worked with embedded systems and assisted students practical electronics and programming tasks.

TECHNICAL SKILLS

- **Frontend:** Angular, React, TypeScript, JavaScript, HTML5, CSS
- **Backend:** .NET Core, Laravel, Node.js, Express
- **Databases:** SQL Server, MySQL, MongoDB
- **Testing & DevOps:** Git, GitHub, Azure DevOps, Docker, Jira
- **Methodologies:** Agile (Scrum, Kanban), REST APIs, Microservices, CI/CD

EDUCATION

B.S. in Computer Science Engineering

Universidad Autónoma de San Luis Potosí | 2018 - 2023

AI Model Development Training

Flexible Vision, San Diego, California | 2024
