PROFESSIONAL SUMMARY

Full Stack Software Engineer with 3+ years of experience building scalable enterprise web applications using Angular, React, and .NET. Experienced in designing modular front-end architectures, implementing RESTful APIs, and optimizing systems for performance and maintainability. Strong collaborator within Agile teams.

Tech Stack: Angular, React, TypeScript, .NET, C#, Node.js, REST APIs, SQL Server, Git, Agile

WORK EXPERIENCE

Software Developer

Grupo TI - 2025.01 - Present

- Developed front-end applications with Angular, optimizing performance, scalability, and maintainability.
- Integrated front-end components with .NET microservices, consuming RESTful APIs through HTTP services.
- Collaborated with product managers and backend developers to translate business requirements into functional UI components.
- Contributed to agile ceremonies (planning, reviews, retrospectives), ensuring delivery of features on schedule.

Junior Software Developer

Bentho Automation - 2022.11 - 2025.02

- Designed and developed a full-stack event system (Angular + Laravel), focusing on user-facing components, UI responsiveness, and API consumption.
- Implemented reusable Angular components and optimized front-end workflows for better user experience.
- Collaborated with backend team to ensure seamless integration of front-end logic with server-side processes

Hardware Lab Intern

Computer Engineering Laboratories, UASLP - 2022.01 - 2023.01

- Programmed Arduino devices using C++
- Debugged and resolved programming errors
- Assisted students with circuit wiring troubleshooting

TECHNICAL SKILLS

- **Front-End:** Angular (RxJS, NgRx, TypeScript), React (Hooks, Context API), JavaScript (ES6+), HTML5, CSS3, Bootstrap
- **Back-End:** .NET Core (C#), REST APIs, Entity Framework, SQL Server, MySQL
- **Version Control / DevOps:** Git, GitHub, Postman, Render
- **Testing & Tools:** Jest, Postman
- **Methodologies:** Agile (Scrum, Kanban), Jira

EDUCATION

Computer Science Engineering

Universidad Autónoma de San Luis Potosí (2018 - 2023)

AI Model Development Training

Flexible Vision, San Diego, California (2024)
