PROFESSIONAL SUMMARY

Software Engineer with 3 years of experience specializing in web development, with expertise in designing and implementing dynamic, scalable, and user-friendly web applications.

WORK EXPERIENCE

Software Developer

Grupo TI México - 2025.01 - Present

- Developed enterprise-level applications using .NET for backend and Angular for frontend, following clean architecture principles and RESTful API design.
- Developed and deployed various microservices that communicate concurrently, enhancing system efficiency and scalability.
- Collaborated in an agile team environment, delivering features under sprint-based planning and performing code reviews.

Junior Software Developer

Bentho Automation - 2022.11 - 2025.02

- Developed a full-stack college (UPS LP) event system using Angular and Laravel, including user registration and payment (Ticketmaster-like).
- Developed a machine vision system with Node-RED, integrating AI for quality inspection on production lines.
- Worked across frontend and backend, designing REST APIs, UI components, and database logic.

Hardware Lab Intern

Computer Engineering Laboratories, UASLP - 2022.01 - 2023.01

- Programmed Arduino devices using C++
- Debugged and resolved programming errors
- Assisted students with circuit wiring troubleshooting

TECHNICAL SKILLS

- **Front-End:** Angular, React, TypeScript, JavaScript, Bootstrap, HTML5, CSS
- **Back-End:** .NET Core, Laravel, Node.js, REST APIs, SQL Server, MySQL
- **DevOps / Infra:** Git, Github, Postman, Render
- **Testing:** Jest, Postman
- **Methodologies:** Agile (Scrum, Kanban), Jira

EDUCATION

Computer Science Engineering

Universidad Autónoma de San Luis Potosí (2018 - 2023)

AI Model Development Training

Flexible Vision, San Diego, California (2024)
